

Special offering request: Akash's move to Canada

A Vision Worth Investing In

Akash came to the US to prepare to return to Odisha, India, to establish a church planting institute that will equip leaders for sustainable, gospel-centered ministry. His calling is clear, the need is great, and God is working!

Why It Matters

During his pastoral internship, Akash has become such a valued part of the Crossway family. When Trinity International University announced its closure, he was able to transfer to Trinity Western University in British Columbia to complete his PhD in Intercultural Studies—an important step toward this long-term vision. We want to help him in this transition.

The Request

The Crossway Board is inviting the people of Crossway to give financially to support Akash to get his Canadian student visa and to meet his initial financial needs in Canada before he is able to secure employment there.

The Crossway Board and External Ministry team have already committed to give:

- monthly support as our missionary beginning in September
- the remainder of our Pastoral Intern funds plus an additional \$2,000

We are inviting the Crossway family to cover the \$2,000 the Board committed beyond what is currently available in the budget, with any extra gifts going directly to support Akash's transition and studies.

The Timeframe to Give

April 26 and May 24, 2026

How you can help

Please prayerfully consider giving.
